# Leaders of Tomorrow

**Anthony Ferrise, P.Eng.,** Structural Design Engineer, Read Jones Christoffersen  
Anthony Ferrise is a structural engineer at Read Jones Christoffersen. He first began working at RJC as an intern in 2009 while finishing his engineering degree at the University of Calgary. In 2011, Ferrise joined the structural engineering team at RJC full-time. He worked on the redevelopment of St. Patrick's Island and helped design a new bridge across the Elbow River to the Calgary Stampede grounds. Ferrise has also consulted for Calgary Airport Authority and Calgary Transit.

**Francis Weston,** P.Eng., CAPM, LEED Green Associate, Project Manager, MMM Group  
Francis Weston is a project manager in the project delivery division of MMM Group. Weston is currently completing his Masters of Engineering degree at the University of Calgary where he also completed his undergraduate degree in civil engineering. He has worked on a variety of projects in the city of Calgary, and outside as well. In 2014, Weston helped to modernize and expand the Banff gondola terminal and visitor center on top of Sulphur Mountain.

**Michael Walker, P.Eng., PE,** PMP, Project Management, Transportation Planning Engineer, McElhanney Consulting Services  
Though raised in Calgary, Michael Walker decided to complete his engineering degree at the University of Alberta. Walker has worked for a variety of different companies, but his current role with McElhanney has allowed him to pursue his passion for engineering in northern climates. While at McElhanney, he has worked on a variety of high-profile projects for Parks Canada Agency in areas including Waterton Lakes National Park, Prince Albert National Park, and Rogers Pass.

**René Rosvold, P.Eng.,** Project Management, Transportation Planning Engineer, CIMA Canada Inc.  
René Rosvold received her engineering degree from the University of Calgary in 2005 and has been working as a transportation planning engineer ever since. Though she has only been with CIMA+ since 2014, she has managed to work on a variety of exciting projects. Some of Rosvold's more recent achievements include creating transportation master plans for North Battleford, Saskatchewan and Sylvan Lake, Alberta.

**Vicki Brunet, P.Eng.,** Civil/Structural Engineer, Klohn Crippen Berger  
Vicki Brunet has been with Klohn Crippen Berger since 2011, a firm at which she was awarded the 2014 Emerging Leader Award. She completed her civil engineering degree in 2008 at the University of Alberta. Brunet's work is centred on structural engineering and water resources. Most recently, she was the lead designer for the Glenmore dam infrastructure improvement project, and, after the 2013 Alberta floods, she inspected 375 storm water outfall sites located along the Bow River, Elbow River, Fish Creek, Nose Creek and West Nose Creek.
